

Supplemental Table S1. Histological Subtypes of 2,020 Papillary Thyroid Carcinoma Patients

Papillary thyroid carcinoma	Mutation-type (n=57)	Wild-type (n=1,963)	Proportion of <i>TERT</i> promoter mutation, %
Classic	37	1,486	2.5
Tall cell variant/Classic with tall cell feature	12	156	7.6
Follicular variant	6	247	2.4
Solid variant	1	3	33.3
Columnar variant	1	0	100.0
Cribiform-morular variant	0	2	0
Diffuse sclerosing variant	0	47	0
Hobnail variant	0	4	0
Oncocytic variant	0	8	0
Warthin-like variant	0	10	0

TERT, telomerase reverse transcriptase.
